TERMS & CONDITIONS OF HIRE

It is the responsibility of the hirer to ensure that all possible steps are taken to avoid injury to users or damage to the equipment (which includes all items supplied by Boing Ltd). PLEASE READ the following safety instructions and ensure that they are followed:

- 1) A reasonable person over the age of 18 must supervise each inflatable at all times.
- 2) Any soft play and/or other equipment must also be supervised by a responsible adult.
- 3) If the equipment has a age or height limit please ensure no one over the said height/age limit uses the equipment.
- 4) The inflatables must be secured to the ground at all time and not be moved from where the delivery driver set them up.
- 5) No food or drinks are to be consumed on the inflatables (to avoid choking and mess).
- 6) All shoes badges and jewellery (e.g. large earrings, necklaces, etc) must be removed to avoid damage to the equipment and injury to other users. It's recommended that spectacles are also removed. Adults must remove high heeled shoes before stepping on mats.
- 7) Ensure that the equipment is not overcrowded and limit the numbers depending on the age and size of children using it according to the recommendations printed on the equipment (on or near the front step on most inflatables).
- 8) Do not allow children to take any hard or sharp objects onto the equipment or anything large enough to block exits/entrances.
- 9) No party poppers, henna, face paint, coloured streamers or "silly string" can be used near or on the equipment as they can permanently stain the equipment.
- 10) No water or other liquid can be poured or sprayed onto the equipment (other than a reasonable amount for cleaning purposes) as it causes the surface of inflatables to become slippery, damages soft play and if equipment is deliberately soaked you may be charged for the loss of subsequent hires and drying time.
- 11) We will not set up in the event of torrential rain or high winds including gusts over 24mph. We have the right come and take down any inflatable during the party/event if we believe it's unsafe.
- 12) No smoking, barbecues or animals near the equipment.
- 13) Reckless or boisterous behaviour must not be allowed.
- 14) Avoid large children and small children from using the equipment at the same time.
- 15) Do not allow users on the inflatables during inflation or deflation.
- 16) Climbing, hanging and sitting on the walls/roofs is dangerous and damaging to the equipment and must not be allowed.
- 17) Children must use slides one at a time and must not climb on the sides of the slides.
- 18) Safety mats must be positioned at the bottom of slides.
- 19) Ensure mats supplied with the equipment remain where they were positioned during installation.
- 20) Do not allow anyone to bounce on the step/front apron of the inflatables. The step is there to help users get on and off.
- 21) No one with a history of neck or back problems should be allowed on the inflatables.
- 22) In the event of rain when the surface of the inflatable starts to become slippery it is time to evacuate. If you leave the inflatable up during the rain/shower it will dry much quicker once the rain has stopped. Please ensure that the inflatable is dry before allowing children back on.
- 23) Ensure that the vent on the side of the blower is kept clear at all times.
- 24) Should a blower stop working immediately remove children from the inflatable.
- 25) Please inform us of any injury requiring professional medical treatment.
- 26) On adult equipment, adults and children cannot use the equipment at the same time. (Anyone under the influence of alcohol or drugs (prescription or otherwise) must not use the equipment.
- 27) Please do not allow children to run over the top of scramble nets as this can be dangerous.
- 28) Ensure that any harnesses that must be worn are worn correctly.
- 29) If you are unsure about anything, please contact us on the telephone number above.
- 30) During your event you should check the inflatables internal pressure at regular intervals and on outdoor hires you should check the wind speed at regular intervals. We have provided a manometer, anemometer and a spreadsheet for you to document your readings. These items can be located in a black box attached to the inflatables blower.

DISCLAIMER

Please note that all persons using this equipment do so at their own risk. The person/organisation hiring the equipment will be responsible/liable for damage or injury occurring from a result of misuse or reckless use. These guidelines are for the safety of all people using this equipment, and it is the sole responsibility of the hirer to ensure they are adhered to. Boing Ltd cannot accept any responsibility for any injury caused to anyone using this equipment.

I acknowledge receipt of the equipment in a good, clean condition and agree to abide by the terms and conditions listed above and return the equipment in the same condition it was received in. (Please note if the equipment is collected in a dirty condition then the person hiring it will incur a cleaning charge from £35 depending on the unit hired).

Operators Routine Inspection

If any faults are found during routine inspection, they must be corrected before commencing operation.

Inspection	Yes / No
Is the site level enough? No overhead wires/trees? Plenty of clear space around the inflatable/s?	
All of the anchorages are in place and secure?	
Landing mats, if needed, are in position?	
No significant rips or holes in the fabric and seams?	
Correct blower?	
Firmly connected to the blow-tube?	
Blow-tube at it's furthest extent less 50mm?	
No exposed electrical parts or wires?	
Electrical reels fully unwound?	
Cables routed out of harms way?	
Mesh guard intact on the blower?	
Petrol cap on?	
Petrol cap in it's secure store hidden from view?	
All electrical equipment is suitable for outdoor use?	
No damage to switches, plugs, sockets?	
Internal pressure sufficient?	READING: KPA
Wind speed reading sufficient?	READING: MPH
